UFLAC Fire Foundation Mission Statement

Firefighters understand commitment and sacrifice but often do not consider themselves heroes. They choose this noble profession to participate in compassionate and dedicated service to the people of the City of Los Angeles. With an undivided pledge to the community, they are not thwarted by the arduous hours away from their families or the dangers they routinely face.

The United Firefighters of Los Angeles City Fire Foundation (UFLACFF), a non-profit 501 (c)(3) organization, is about firefighters helping firefighters. Specifically, UFLACFF provides financial support to firefighters and their immediate families who suffer economic hardship as a result of illness, injury, or death. Additionally, the organization provides educational assistance to the children of fallen firefighters.

Further, UFLACFF provides training and support for fire service members so they can better protect the lives and property of the citizens of Los Angeles. To achieve this mission, it provides firefighters with financial assistance for progressive fire training programs, technology and equipment.

This foundation acknowledges the importance of community support and safety. It is dedicated to the delivery of effective fire suppression activities, rescue services, hazardous materials operations, and quality fire safety education to the public.
